(9) The money to be spent on the buildings will mostly be the villagers' own and they are shrewd enough. The overseer will only be an adviser in matters of construction selection of materials &c. In this new Executive Engrs sanction is not necessary

(10) The fact that two orderlies are wanted for an overseer on Rs 60–100 shews the extravagant ideas about menial staff we have come to entertain in Mysore. One in my opinion will be quite sufficient

24 I have no objection to the Overseer's plans estimates &c being checked by the Sub Div. Offr & the Executive Engineer - That would certainly be better, but I doubted whether the Education Dept. would be able to utilize their grants fully if that were done in all cases - My idea of School buildings, was that of comparatively modest structures made of materials which the better class of villages use for their own residences - I agree with the draft as it stands.

OFFICE OF INSPECTOR GENERAL OF EDUCATION IN MYSORE

No 12619 / 702

Bangalore 2nd May 1913

From M Shama Rao Esq M A
Offg *Inspector General of Education in Mysore*

To
C S Balasundaram Iyer Esq B A
Secretary to the Government of His Highness the
Maharaja of Mysore Departments of Education &c

Sir

I have the honour to With reference to Government Order No 8722-3/Edn 283-12- dated 28th April 1913 sanctioning the grant of a lakh of rupees for the expansion of Primary Education for the ensuing official year 1913-14 I have the honour to inform you that in the case of new elementary schools the villagers are expected to provide the necessary buildings For want of suitable buildings being readily available a house in a crowded street or with insanitary surroundings a temple varanda or room where no quiet work can be done, or a disused cowshed or some such place is offered and the same has to be accepted for want of choice In very many instances however the villagers readily come forward with money contributions and also express willingness to contribute labour With a the view of encouraging these latter offers I have made available a large number of printed copies of the type designs of buildings approved by Government in Government Order No 2935-7 / E92-12-3 dated 8-Oct/12 the buildings being constructed with cheaper materials and at less cost There has however been experienced a great difficulty in giving proper advice to the villagers for want of a professional man who can visit the village report the sort of materials available there and make an estimate of the cost with reference to local circumstances I therefore beg to propose that Government may be pleased to sanction the

entertain

entertainment of an Overseer for a period of one year on trial I prefer borrowing the services of an Overseer from the Public Works Department and his pay may then be his own pay in the Department, with a local allowance of Rs 10 per month as his Head quarters will be a costly place like Bangalore and with the Travelling Allowances of an Assistant Deputy Inspector of Schools As he has to travel over the whole State and visit remote villages higher allowances are needed to enable him to maintain the necessary camp equipage I beg also that two orderlies on Rs 8 each may be sanctioned temporarily for the same period of one year If the Government are pleased to sanction these proposals, with effect from the beginning of July next I shall take very early action to have a number of school-buildings constructed at the cost of the villagers supplemented with small contributions from the State grant for buildings for the necessary wood-work

I have the honour to be,

Sir,

Your most obedient servant

Ka Shamarao.
